PROJECT DETAILS

Expense Tracking(JUNE 2024- Present)

Our expense tracking application is designed to help users manage their finances with ease and efficiency. It offers an intuitive, user-friendly platform for tracking daily expenses, monitoring financial trends, and maintaining budget control. The application provides users with real-time data insights, secure authentication, and seamless expense categorization.

Instagram Reach Analysis(DEC 2023 -AUG 2024)

An analysis of Instagram reach and prediction of future reach is an important topic in the field of social media marketing. Instagram, as one of the most popular social media platforms, has a significant impact on business.

Soil Analysis and Classification(AUG 2023-DEC 2024)

Soil analysis is a process used to evaluate the composition and fertility of soil. It involves assessing key factors such as nutrient levels, pH, texture, and organic matter.
